

FOUR FAST FACTS FOR BUYING THIS FALL

There is no better time to deck your dock with a MasterCraft than this fall. Take advantage of buying during this season to ensure you are well equipped and ready to rip next summer.

HERE ARE FOUR FAST FACTS ABOUT BUYING THIS FALL:

1. — VERY LIMITED PREVIOUS MODEL YEAR INVENTORY

Previous model year boats have the best likelihood of discounts so dealers can move existing inventory. With past inventory running low, your best bet is to reach out to your local dealer now.

2. — NEW MODELS ARE ROLLING IN

Buy in-stock inventory as the newest boats with the latest technology are showing up at dealerships. Hit the water immediately with your new boat and know that you are dialed in with the latest and greatest for next season.

3. — ORDER YOUR CUSTOM OPTIONS AND DESIGNS

Order your MasterCraft exactly how you want it now. With endless options and upgrades, you'll have your customized craft ready to rip for next summer.

4. — SLOTS ARE LIMITED AND FILLING UP FAST

With the rapid growth of boat sales, demand has continued to outpace production and new boat slots are filling up fast. If you're in the market for a new boat next summer don't wait to secure your spot.
